The Medline Guarantee
We guarantee everything we sell. Our products are built to last, as evidenced by our generous warranty. Should you have an issue with a Medline product, please call us or speak to your Medline sales representative and we will resolve the issue quickly and efficiently.
Dear Customers, Dealers and Distributors:

As president of Medline’s Durable Medical Equipment (DME) division, I’m proud of our complete selection of home care beds and accessories. Throughout this brochure, you’ll find high-quality home care beds and accessories, along with helpful information on topics affecting our industry.

At Medline, we will always go the extra mile to ensure your complete satisfaction.

Sincerely,

Rich Derks
President, DME Division
Medline Industries, Inc.

---

High-Quality Beds

Medline beds meet or exceed very stringent dynamic and static load requirements. Each bed is inspected and fully system tested at maximum weight capacity.

Overall Cost Effectiveness

As National Competitive Bidding (NCB) moves forward, reimbursements are being slashed by up to 30 percent.¹ To offset these reductions, it’s more important than ever to find new ways to cut costs:

- **Reduced overall cost of ownership** – Because Medline beds stand the test of time, we offer some of the longest warranties in the industry.
- **Reduced risks** – Medline has beds and motors that are very light, reducing the risk of back injuries or property damage during storage, setup and transport.
- **Economical beds for rentals that you expect to cap out** – Our Basic beds offer a lower price-point to help reduce your up-front costs, and they still come with a generous two-year warranty.
- **Increased efficiency** – The electronics on Medline’s MedLite beds are washable, so cleaning doesn’t require removal of the motor. And with our wide selection, you can get everything you need, without having to shop around.

Reliable Service

Medline has a large staff of friendly and knowledgeable home care bed specialists, sales representatives and customer service agents who are waiting to provide you with world-class support.

Growing Number of Injuries Among Delivery Drivers

US DEPARTMENT OF LABOR STATISTICS ON OCCUPATIONAL INJURIES

Increase of 24 percent for light or delivery service truck drivers!

The number of reported nonfatal occupational injury and illness cases that require days away from work to recuperate decreased by 9 percent recently for private industry, state government and local government, according to the Bureau of Labor Statistics. The total incidence rate decreased 5 percent to 117 cases per 10,000 full-time workers. Some of the overall decrease in case counts may be attributed to economic factors, including a decrease in employment and total hours worked, particularly in construction and manufacturing.

CASE CHARACTERISTICS
Overexertion accounted for 22 percent of all occupational injuries and illnesses. Among the seven occupations with high case counts and incidence rates, it was the leading event or exposure for nursing aides, orderlies and attendants; janitors and cleaners; and all truck drivers (except driver/sales workers).

Table A
Percent of Total Musculoskeletal Disorders by Selected Body Part

Table B
Nonfatal Occupational Injuries and Illnesses Involving Days Away from Work

<table>
<thead>
<tr>
<th>Occupation</th>
<th>Number</th>
<th>Median days away from work</th>
</tr>
</thead>
<tbody>
<tr>
<td>Truck drivers, light or delivery services</td>
<td>31,600</td>
<td>14</td>
</tr>
</tbody>
</table>

The study also showed that with truck drivers, light or delivery services, there was a median of 14 days away from work as a result of these injuries.

With statistics like these, HME dealers can’t afford to take delivery drivers’ backs for granted.

DID YOU KNOW...?
Medline’s MedLite beds are up to 40 lbs. lighter than most other home care bed available today, helping you reduce the risk of injuries to your delivery drivers.

KEY FINDINGS:
Despite the total decrease in the incidence rate, the following occupations in the private sector had increases in their rates:
• Light or delivery service truck drivers (increased 24 percent)
• Restaurant cooks (increased 20 percent)
• Landscapers and groundskeepers (increased 10 percent)
• Registered nurses (increased 5 percent)
MedLite Beds
Exceptionally light and easy to use.

The lightest beds with a great warranty! MedLite beds help reduce the risk of back injuries or property damage because they are among the lightest home care beds in the industry.

Above shown with MedLite bed MDR107003L, mattress MDR230981, side rail MDS89697, and overbed table MDS104015.
MedLite Beds are:

**High-Quality**
- Premium Linak® motors provide smooth reliable operation for years
- Recessed headspring supports and foot assembly reduce the chance of pinching and injuries

**Light**
- We have some of the industry’s lightest beds, making transport, setup and storage much easier
- Our MedLite semi-electric bed weighs only 137 lbs (62 kgs)
- The 24V DC motors are also lightweight – and quiet

**Strong**
- An extra steel plate is welded to the middle of the frame ensuring strong and stable support
- Painted frames have three coats of enamel plus a clear coat for a strong, chip and scratch-resistant finish
- Durable plastic woodgrain end panels resist breakage
- Heavy-duty remotes resist breakage and moisture

**Easy-To-Use**
- The beds can be cleaned without having to remove the motor, and the electronics can be washed down with standard water pressure
- End panels are easy to wipe down and keep clean
- Smooth rolling, casters make the bed easy to move
- Convertible to a low bed using MedLite Low Bed Conversion Kit – sold separately (see page 8)

---

**MedLite Full-Electric Bed**

**MedLite Semi-Electric Bed**

Among the lightest home care beds in the industry!
My dealership prefers Medline beds because they’re a good value for the money. They’re very durable and the long warranty gives us peace of mind. Thanks Medline!

Frank Lopez, AV Pulmonary Care, Lancaster, CA

Features both automation and a traditional hand crank
Premium, quiet Linak motors provide dynamic movement without disturbing other family members
Weighs only 137 lbs (62 kg), one of the lightest beds in the industry
Easy to clean without the need to remove the motor

Specifications
Assembled weight 137 lbs. (62 kg)
Height range 14.5" - 22.5" (37 - 57 cm)
Weight capacity 450 lbs. (204 kg)
Casters Four (2 locking) 3" (8 cm)
Warranty 5 years for electrical and mechanical components; lifetime for the bed frame

Item No. Description
MDR107002L Semi-Electric Bed

Standard on all Medline beds, the heavy-duty remote control resists breakage and moisture
**MedLite Full-Electric Low Bed**

Help reduce falling injuries! This bed can be lowered to 9.5" (24 cm) off the floor.

- Low height helps minimize the possibility of injuries for patients who are at risk of falling out of bed.
- Premium, quiet Linak motors provide dynamic movement without disturbing other family members.
- Recessed headspring supports and foot assembly reduce the chance of pinching and injuries.
- An extra steel plate is welded to the middle of the frame ensuring strong and stable support.

### Specifications

- **Height range**: 9.5" - 22.5" (24-57 cm)
- **Assembled weight**: 145 lbs. (66 kg)
- **Weight capacity**: 450 lbs. (204 kg)
- **Casters**: Four casters (2 locking)
- **Warranty**: 5 years for electrical and mechanical components; lifetime for the bed frame

Basic Beds

Comfort and reliability at an economical price.

Basic beds offer a lower price-point to help reduce your up-front costs. With Medline Basic beds, you have an incomparable combination of value and quality.

Above shown with Basic bed MDR107002E, mattress MDR237827, side rail MDS89690, and overbed table MDS107015
Basic Beds are:

**Light**
- Easy to transport with a foot section that weighs just 42 lbs (19 kgs)

**Easy-To-Use**
- Convenient DC motor box snaps off quickly, making delivery, setup, and routine maintenance easier

**Safe**
- A 9V battery back up allows movement to lowest bed position during power failures (batteries not included)
- Headspring supports recessed to resist pinching and injuries
- Foot assembly recessed to reduce chance of pinching

**High Quality**
- 2-Year Warranty on electronics and mechanical components
- 100% system tested and certified

---

**Basic Full-Electric Bed**

Provides high reliability at an economical price

**NEW!**

---

**Basic Semi-Electric Bed**

Features both a smooth high-low motor and a traditional hand crank
Light weight – foot section weighs just 42 lbs. (19 kg)

Convenient DC motor box snaps off quickly, making delivery, setup, and routine maintenance much easier

9V battery backup allows lowering during power failures (battery not included)

Recessed headspring supports and foot assembly help reduce the chance of pinching and injuries

Specifications

- **Height range**: 15” - 20” (38 cm - 51 cm)
- **Bed deck dimensions**: 80” (203 cm) x 36” (91 cm)
- **Assembled weight**: 155 lbs. (70 kg)
- **Weight capacity**: 450 lbs. (204 kg)
- **Casters**: Four (2 locking)

Transport your Basic bed with ease. Just fold, attach and roll!
- Makes beds easy to transport and facilitates efficient storage.

New-and-improved remotes with large buttons for exceptional ease of use
Expanded Competitive Bidding Program

PROGRAM TO PURCHASE DURABLE MEDICAL EQUIPMENT

Second Phase

As of August, 2011, Round One of competitive bidding yielded reductions of 35% compared to the fee schedule, 51% of contracts awarded to small businesses, and no changes in beneficiary health status. Inquiries in the first quarter of 2011 totaled less than 0.9 percent of calls to the Medicare call center, and Medicare received only 45 complaints during that time.

THE EXPANDED ROUND TWO CATEGORIES OF PRODUCTS ARE:

- Oxygen, oxygen equipment, and supplies
- Standard (Power and Manual) wheelchairs, scooters, and related accessories (a new category that combines all mobility devices)
- Enteral nutrients, equipment, and supplies
- Continuous Positive Airway Pressure (CPAP) devices and Respiratory Assist Devices (RADs) and related supplies and accessories
- Hospital beds and related accessories
- Walkers and related accessories
- Negative Pressure Wound Therapy pumps and related supplies and accessories (new category)
- Support surfaces (Group 2 mattresses and overlays)

CMS will now begin a pre-bidding supplier awareness program for Round Two, and conduct a national mail order competition for diabetic testing supplies at the same time as the Round Two competition. A list of ZIP codes included in Round Two and a list of the specific items in each product category are available on the website for the Competitive Bidding Implementation Contractor: www.dmecompetitivebid.com

Additional information on the competitive bidding program is available at: http://www.cms.hhs.gov/DMEPOSCompetitiveBid/01_overview.asp#TopOfPage

DID YOU KNOW...?
Medline beds are priced to provide you with the best possible value – in terms of longer warranties and valuable technical support.

Bariatric Beds

Safety and security for a good nights rest

Three powerful AC motors raise the head section, foot section and overall height with ultra-quiet and smooth operation.

Above shown with Bariatric bed MDR107004, mattress MDR211892, side rail MDS89697BAR, and overbed table MDS104015.
Bariatric Beds are:

**Strong**
- Comfortably accommodates larger patients with a 600 lb. (272 kg) weight capacity and an extra-wide deck: 42" (107 cm) x 80" (203 cm)
- Reinforced pan deck creates a strong bedding surface

**Easy**
- Split-frame design sets up with minimal tools and simplifies delivery
- Smooth rolling casters allow easy positioning of bed

**Reliable**
- Strong AC motors provide reliable lifting for years
- Durable remote features easy-to-access buttons

---

**Bariatric Full-Electric Bed**

Split-spring design provides for easy setup with minimal tools and trouble-free delivery.

- Mattress not included
- Three AC motors for the head section, foot section, and overall height
